

Downtown Revitalization

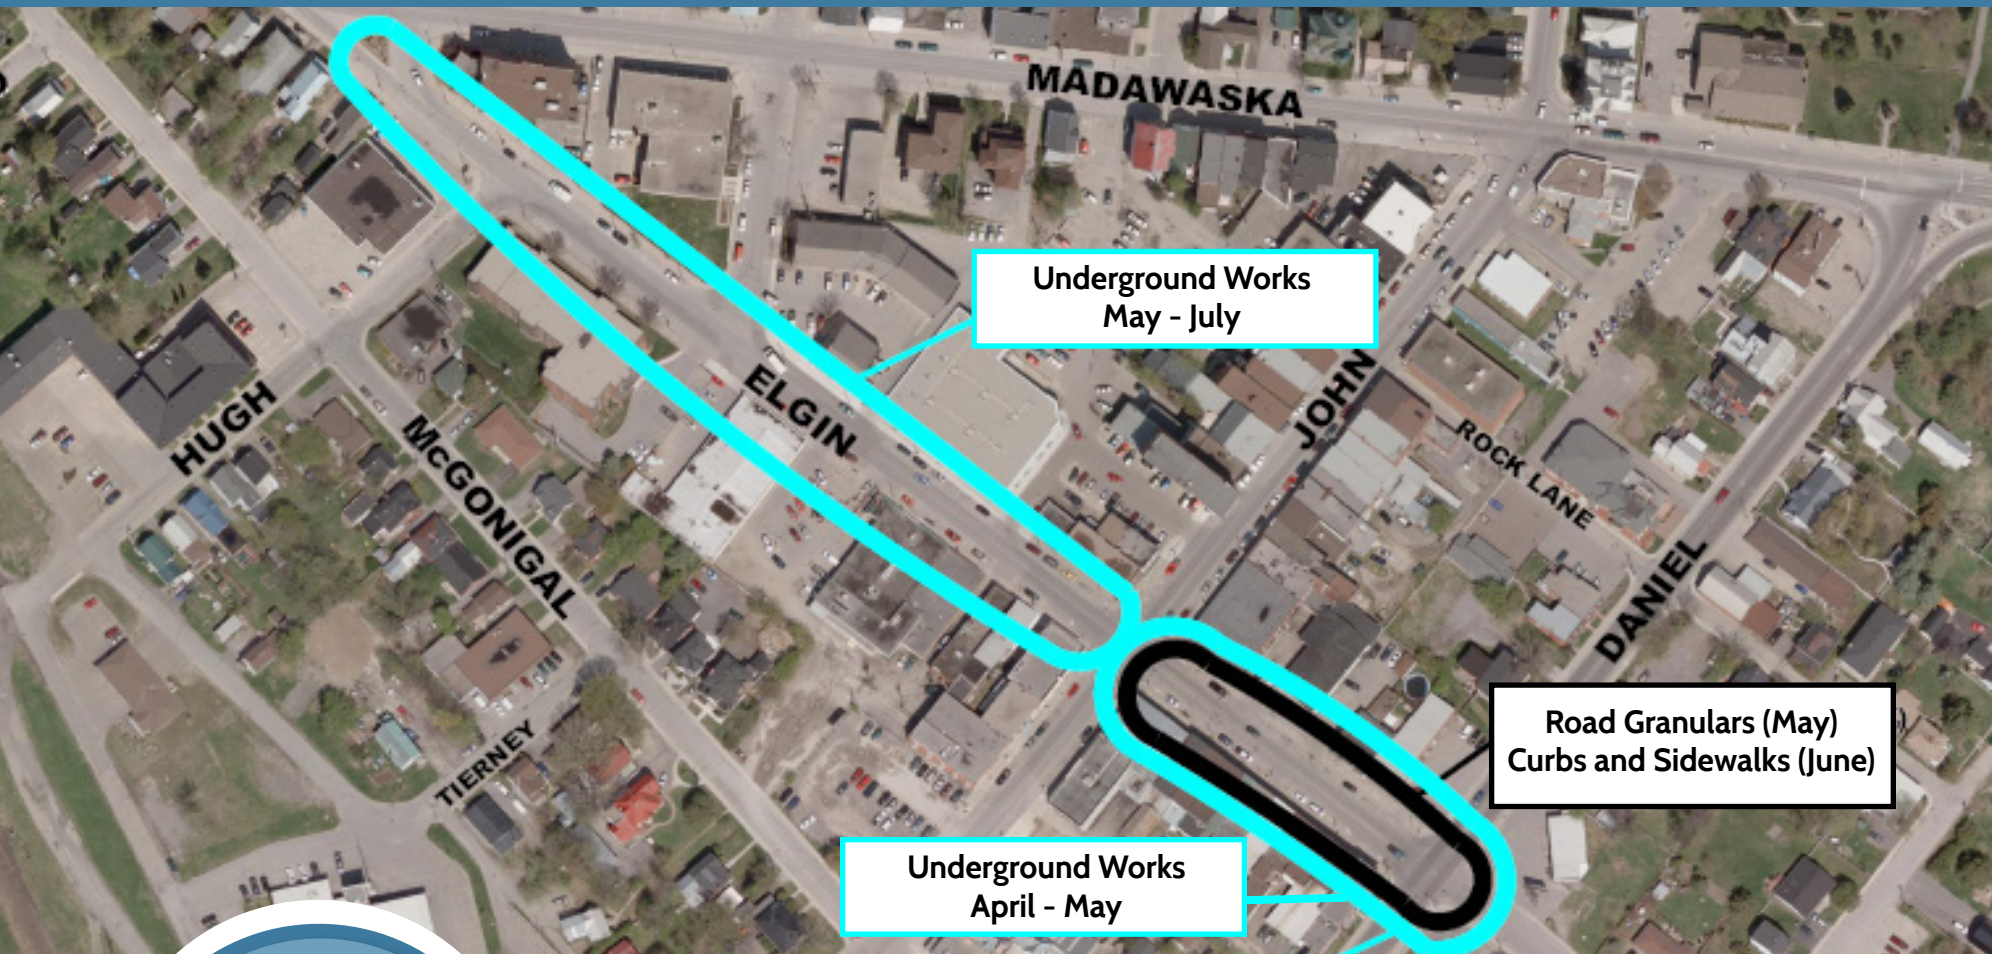

- The Downtown Revitalization Project is the Town's largest single self-funded investment ever made towards the rehabilitation of aging infrastructure and will also provide an enhanced streetscape and improved accessibility in Arnprior's downtown core.
- This project includes the reconstruction of sanitary sewers, storm sewers, watermains, roads, curbs, sidewalks, streetlights, and the traffic signals at the intersection of John Street and Elgin Street, and will continue to bring new life to Arnprior's downtown streetscape with the placement of new trees, planters, and various forms of street furniture.

The 2017 phase of the project is scheduled to begin construction on or about April 17, 2017 and is anticipated to be completed on or about October 31st, 2017. The 2017 phase of the project will include construction on the following streets:

- Elgin Street West from Daniel Street North to Madawaska Street
- McGonigal Street West from Hugh Street North to Edward Street North
- Hugh Street North from McGonigal Street West to Elgin Street West

Tentative Construction Schedule for April - June

Construction schedules for further stages can be found on the project website and will be advertised as the project advances.
