Town of Arnprior COVID-19 Update 3

Arnprior, ON. The Town of Arnprior Council and Staff are working closely with the Renfrew County Health Unit and community partners to monitor the COVID-19 virus (coronavirus) and respond appropriately. For the most up-to-date COVID-19 information and news, please visit the Ontario Ministry of Health website [here](#).

Council and Staff would like to thank residents and businesses for the many displays of a community coming together and supporting each other even while social distancing. We know that this is a time of change and uncertainty and we appreciate your cooperation and understand as we all work together to mitigate the spread of COVID-19 in our community.

At this time there are many updates and programs being released from all levels of government to assist residents and businesses alike. The Town continues to update the Town COVID webpage with links to resources as they become available at www.arnprior.ca/covid.

Hydro rates have been a large concern for residents with higher uses during peak hours with many citizens home during the day. Mayor Stack has contacted MPP John Yakabuski and was assured that the Province is aware of the concerns and are weighing options for modifications currently. We can expect further news to be forthcoming.

As many residents are at home dealing with the effects of COVID-19, the Town of Arnprior has also lifted the winter on-street parking ban at this time. If the Town experiences a snowfall(s) between now and April 1, 2020, the ban will be re-instated to facilitate snowplowing and removal operations. Please watch for any notices regarding reinstatement through the Town's social media platforms and website.

A reminder that although all Town facilities are closed staff can still be reached by phone and e-mail, contact information can be found at www.arnprior.ca/contact-us. As always residents are encouraged to follow the guidance and protocols of our local experts in Public Health.

Please monitor www.arnprior.ca/covid or the Arnprior App for updates.
