Here are 3 great tips to help Reduce, Re-Use, and Recycle during this holiday season

Reduce: Buy items with less packaging. It's time to get savvy in the supermarket and stop buying products which are excessively packaged. You're only going to unwrap them and put them on the table anyway.

Re-Use: Save your Christmas cards each year and cut the fronts into gift tags. This is a clever way of saving money, reducing waste, and it gives a unique and creative accent to your wrapping.

Recycle: If wrapping paper is metallic, has glitter on it, or has a texture to it, it is not recyclable. However, un-laminated paper based wrapping paper is usually recyclable!

Space provided through a partnership between industry and Ontario municipalities to support waste diversion programs.
